Glass signs remain the property of advertisers, who **need not pay for space.** These signs are easy to keep clean, and remain always brilliant and attractive. The Dawes Mfg. Co. have running contracts for the most successful Breweries and other large business concerns in the United States.

SPECIAL. Convex Glass has eighty times more tensile strength than flat glass. The Dawes Mfg. Co. manufacture their own colors from pigments known only to the heads of their house. Their colors will retain brilliancy and WILL NOT FADE when exposed to sun rays or elements, so common with other manufacturers' signs. We design trade marks for all enterprising concerns.

[ELATERITE is Mineral Rubber]

ARE YOU THINKING ABOUT ROOFING?

If you are, think about ELATERITE

It is serviceable in all climates; is in general use on mining and other buildings from Alaska to Mexico. It is tempered to suit the climate in which it is to be used, so does not dry out and crack, nor run under intense sun heat. It is a perfect non-conductor. Buildings covered with it can easily be kept at an even temperature. It cannot rust or corrode; is not affected by Rain, Snow, Salt Water, Steam, Acids, Vapors or Gases; is superior to metal, as it never needs painting or coating. We are prepared to submit references to any extent desired. Do you want more information? Send for samples and printed matter.
